

Open Greek & Latin •

Produces big, open data to facilitate historical language learning and advance scholarship in the field of Classics.

<https://github.com/OpenGreekAndLatin>

eLearning •

Teaches ancient languages through an interactive web application, *Ancient Geek*, providing localised support for reading primary source texts.

<https://github.com/OpenPhilology/phaidra>

Business •

Produces broad market research and analyses the State of the Art using open access eLearning and micropublishing technologies.
